

Support of Employers and Young People with Disabilities at the Job Market

Working seminar

15th March 2016

**Place: Galerie RUV,
Faculty of Education MU,
Poříčí 9 (ground floor), Brno**

The SEN Employment Links project brought together non-governmental organizations, VET colleges and higher education institutions from four countries (UK, Finland, Germany and Czech Republic) with the aim of supporting young people with SEND at the job market. We build on rich and diverse experience of the consortium members and work on the development of a mini-guide for prospective and current employers. The mini-guide shall present strengths, needs and abilities of young people and offer inspiring examples of good practice. The aim of our project is to inspire and motivate employers to open their workplaces to young people with SEND as well.

The seminar is a part of the Erasmus+ SEN Employment Links project activities. The attendance is free. Interpreting from and to Czech will be provided throughout the whole seminar and site visits.

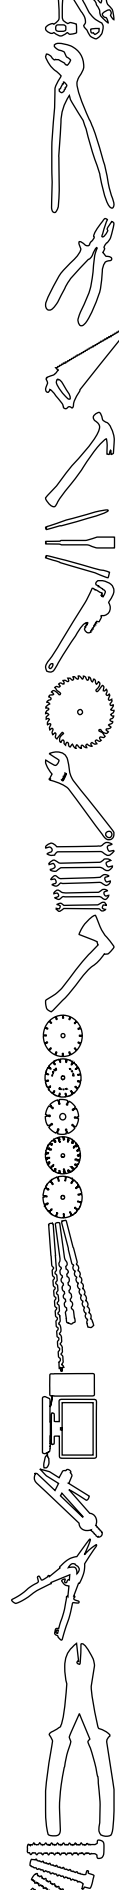

Registration:

**We kindly ask you to confirm your attendance to:
dobrovolna@ped.muni.cz**
